

This election is made with traverse. As stated in the MPEP §803, if search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions. It is Applicants' position that it would not be unduly burdensome to perform a search on claims 1-28 together. Accordingly, Applicants traverse the restriction requirement.

Applicants note that the Office Action stated that claims 15-18 link Groups I and II, and that upon allowance of the linking claims, the restriction requirement as to the Groups I and II will be withdrawn and any claim depending from or otherwise including all the limitations of the allowable linking claim will be entitled to examination in the instant application.
